

Night flight restrictions

Stuttgart Airport has a strict night flight restriction in place to protect our neighbors from aviation noise at night. Only a few aircraft movements are excluded. The night flight restriction applies to:

Departures between 11:00 p.m. and 6:00 a.m.

Arrivals between 11:30 p.m. and 6:00 a.m.

Permitted are departures and arrivals of all aircraft with the exception of civil aircraft with jet engines without noise certificate in compliance with ICAO Annex 16, Chapter 3/4

Permitted are:

- Delayed landings until midnight with scheduled landing time before 11:30 p.m.
- Overnight airmail flights (aircraft has to comply with guidelines of ICAO Annex 16, Chapter 4)
- Flight movements for medical assistance or civil protection
- Emergency or diverted flights
- Survey flights
- Military flight movements
- Propeller-driven aircraft (aircraft > 8.618 t has to fulfill guidelines of ICAO Annex 16, Chapter 4 and aircraft < 8.618 t has to adhere to the guidelines of Chapter 10)
- Flights with special permission from aeronautical authorities
